

CLAIMS

What is claimed is:

1. A foot powder comprising only:
about 40% to about 60% by weight of boric acid powder; and
about 40% to about 60% by weight of sublimed sulfur powder.
2. The foot powder of claim 1 wherein the ratio of boric acid powder to sublimed sulfur powder is about 1:1.
3. A foot powder comprising:
about 40% to about 60% by weight of boric acid powder; and
about 40% to about 60% by weight of sublimed sulfur powder.
4. The foot powder of claim 3 wherein the ratio of boric acid powder to sublimed sulfur powder is about 1:1.
5. A method for treating foot odor, the method comprising:
applying topically to feet the foot powder of claim 1.
6. The method of claim 5 further comprising prior to the applying step:
washing the feet; and
drying the feet.
7. The method of claim 6 further comprising:
performing the washing, drying, and applying steps daily.
8. The method of claim 7 further comprising:
repeating the performing step for about an initial period.
9. The method of claim 8 wherein the initial period is about two weeks.
10. The method of claim 8 further comprising:
performing the washing, drying, and applying steps at a regular interval after the initial period.

11. The method of claim 10 wherein the regular interval is about three days.
